

MANDANA SAMIEI

PhD Candidate, Department of Computer Science, McGill University
514-549-9747 | samieima@mila.quebec | [linkedin.com/in/mandana](https://www.linkedin.com/in/mandana) | [scholar.google/mandana](https://scholar.google.com/mandana)

RESEARCH INTERESTS

Research Interests: Reinforcement Learning, Probabilistic Modelling, Modularity, and Reasoning.

EDUCATION

Ph.D. – Mila and McGill University [GPA: 4.00/4.00] <i>School of Computer Science. Advised by Prof. Blake Richards and Prof. Doina Precup</i>	Montreal, Canada Jan. 2020 – present
M.Sc. – Concordia University [GPA: 4.02/4.30] <i>Gina Cody school of engineering and computer science. Advised by Prof. Thomas Fevens</i>	Montreal, Canada 2017 – 2019
B.Sc. – Shahid Beheshti University [GPA: 17.22/20.00] <i>School of Computer and electrical engineering. Advised by Prof. Mona Ghassemian</i>	Tehran, Iran 2012 – 2016

RECOGNITION AND AWARDS

Awarded Fonds de Recherche du Québec Nature et technologies (FRQNT)	Apr. 2023
Awarded <u>Women in AI</u> Excellence Doctoral Scholarship	Feb. 2022
Invited talk on Memory in Reinforcement Learning at <u>Microsoft Research Summit 2021</u>	Oct. 2021
Awarded <u>UNIQUE</u> 's (Unifying Neuroscience and Artificial Intelligence) PhD Excellence Scholarship	Jan. 2021
Received <u>MITACS</u> Accelerate Research Award	Jan. 2019
Accepted at <u>DLRL Summer School</u> and awarded Travel fund	Sep. 2019
Received <u>Concordia</u> Merit Graduate Scholarship	Sep. 2018
Ranked top 1% in Iranian National University Entrance Exam (<u>Konkour</u>)	Jul. 2012

RESEARCH PROJECTS

Poster at NeurIPS Worksop <i>Causal Hypothesis Testing via Hierarchical Reinforcement Learning.</i> <ul style="list-style-type: none">How can we generate hypothesis via structural causal models which can be tested using conditional policies?	Sept. 2024
In progress <i>Schemas for planning in Reinforcement Learning (RL).</i> <ul style="list-style-type: none">Learning the Underlying Structure of a task for Goal-Conditioned Planning in RL.	Sept. 2024
In progress <i>Learning causal structure via Generative flow Networks.</i> <ul style="list-style-type: none">Working on Bayesian Structure Learning to learn the underlying structure of a task.	Mar. 2023
Poster <i>Episodic memory for deep reinforcement learning.</i> <ul style="list-style-type: none">Studied generalization performance of reinforcement learning (RL) agents using episodic memories incl. <u>neural episodic controller</u>.Developed Grid-Cell based agent using LSTM and Actor-Critic models inspired by Banino et al.Presented at Microsoft Research Summit 2021 link.	Sept. 2021
Poster <i>Towards a biologically-inspired navigation with grid-like representations.</i> <ul style="list-style-type: none">Investigated the navigation model of reinforcement learning (RL) agents using grid-like representations.The project is accepted for a poster presentation at BARL 2020 co-located with NeurIPS 2020.The code and the poster are available.	Aug. 2020
Master's Thesis <i>Meta-Learning for Cancer Phenotype Prediction from Gene Expression Data</i> <ul style="list-style-type: none">Designed a meta-learning framework and created a meta-dataset that contains 174 genomics and clinical tasks.Implemented meta learning models incl. MAML and Prototypical NetworksThe full thesis is available here.	Jan. 2020
Paper <i>Torchmeta: A meta-learning library for PyTorch</i> <ul style="list-style-type: none">Investigated few-shot learning datasets and contributed to an open source library for meta-learning algorithms.	Sep. 2019

- Torchmeta received the Best in Show award at the Global PyTorch Summer Hackathon 2019.
- The code is open-sourced [here](#) where it has achieved **1.9k stars** and **242 forks**. And here is the [manuscript](#).

Paper | *The TCGA Meta-Dataset Clinical Benchmark*. Aug. 2019

- Built a clinical meta-dataset derived from The Cancer Genome Atlas Program (TCGA) which includes molecular profiles of more than 11,000 human tumors across 38 different cancers.
- Presented the work at Deep Learning and Reinforcement Learning Summer School - DLRLSS, 2019.
- The [preprint](#) and [code](#) are publicly available and have already been cited.

Bachelor's Thesis | *Human Activity Recognition using Smart Wireless Sensors* Jul. 2016

- Studied Received Signal Strength Indicator (RSSI) and Link Quality Indicator (LQI) and analyzed the observed patterns among different activities.
- Developed a Human Activity Recognition System to detect Sleeping, Sitting, Standing, Walking, etc.
- An extended abstract on "Activity Recognition using Smart Wireless Sensors" was accepted to the **IEEE Wireless Communications and Networking Conference (WCNC) 2017**. [Manuscript](#).

PROFESSIONAL EXPERIENCE

Software Developer Intern 2018 – 2019
THINK Surgical Co. Montreal, Canada

- Under supervision of Stefan Seefeld & Sunil Rottoo, developed a python-based software to assess and analyze the **positional accuracy of a robotic surgical tool** that allows surgeons to cut the bones precisely during knee implant surgery. [Proposal info](#).

PRESENTATIONS

Towards Efficient Generalization in Continual RL using Episodic Memory. October. 2021
Microsoft Research Summit 2021 Virtual

- Main Audience: Microsoft researchers, profs and graduate students

Meta-Learning for Cancer Phenotype Prediction using Gene Expression Data. Jan. 2020
Concordia University Montreal, Canada

- Main Audience: Concordia graduate students and researchers

TCGA Benchmark for Supervised Classification. Aug. 2019
Deep Learning and Reinforcement Learning Summer School (DLRLSS) Montreal, Canada

- Main Audience: DLRL Summer school attendees

Meta-Learning for Training Medical Image Analysis Systems. Jan. 2019
Medical Reading Group at Mila - Quebec AI Institute Montreal, Canada

- Main Audience: Mila researchers

TECHNICAL SKILLS

Programming Languages: Python, Java, C/C++, JavaScript

Libraries: Jax, Pytorch, Tensorflow, OpenAI Gym, Opencv, Pandas, NumPy, Matplotlib

Developer Tools: PyCharm, Jupyter Notebook, Git, Google Cloud Platform, VS Code

CONFERENCE REVIEW

Reviewer | *Conference on Continual Learning Agents (CoLLAs) 2024*

Senior Reviewer | *Reinforcement Learning Conference (RLC) 2024*

Reviewer | *Generative Models for Decision Making workshop at ICLR 2024*

Reviewer | *Transactions on Machine Learning Research (TMLR) 2023*

Reviewer | *Conference on Continual Learning Agents(CoLLAs) 2022*

Reviewer | *Decision Awareness in Reinforcement Learning (DARL) at ICML 2022*

Reviewer | *The 2nd Biological and Artificial Reinforcement Learning Workshop (BARL) at NeurIPS 2020*

Reviewer | *The 15th Machine Learning in Computational Biology Conference (MLCB) 2020*

Reviewer | *The AI for Social Good Workshop 2019, ICLR*

TEACHING EXPERIENCE AND DEVELOPMENT

Tutor & marker <i>Reinforcement Learning (COMP 579)</i> McGill University	Jan. 2022–April. 2022
Tutor & marker <i>Fundamentals of Machine Learning (IFT 6390)</i> University of Montreal	Sept. 2020–Dec. 2020
Tutor & marker <i>Intro to Robotics & Intelligent Systems (COMP 417)</i> McGill University	Sept. 2020–Dec. 2020
Tutor & marker <i>Pattern Recognition (COMP 473)</i> Concordia University	Sept. 2019–Dec. 2019
Lab demonstrator <i>Programming and Problem Solving (COMP 5481)</i>	May. 2019–Aug. 2019
Tutor & lab leader <i>Principles of Programming Languages (COMP 348)</i>	Jan. 2019–May. 2019
Tutor & lab leader <i>Computer Networks</i> Shahid Beheshti University	Sep. 2019
Tutor, marker, lab designer <i>Technical Language in Computer Science</i> Shahid Beheshti University	Jan. 2016

COMMUNITY AND VOLUNTEER ACTIVITIES

Local Chair <i>Conference on Continual Learning Agents(CoLLAs) 2022, 2023</i>	Apr. 2022 - Aug. 2023
Challenge Organizer <i>ML Reproducibility Challenge (MLRC) 2023</i>	Dec. 2023 - Mar. 2024
Board Member <i>Women in Machine Learning - WiML</i> <ul style="list-style-type: none">Lead at WiML Workshop at ICML 2023.	Mar. 2022 - Present
Workshop Organizer <i>Rethinking ML papers at ICLR 2021</i>	May 2021
Lab Representative <i>Quebec AI Institute - Mila</i> <ul style="list-style-type: none">Point of contact between admin, profs, and lab reps.	Oct 2021 - 2022
Study-group organizer <i>Mila Neural-AI Reading Group</i> <ul style="list-style-type: none">This reading group is a bi-weekly meeting at Mila - Quebec AI Institute. The goal is to foster collaborations between the Neuroscience and Artificial Intelligence communities. The website can be found here.	Sept. 2019 – Present
Content Creator <i>Neuromatch Academy 2021</i> <ul style="list-style-type: none">Created hands-on notebook for RL for Games Tutorial.	Jul 2021 - Aug 2021
Workshop organizer <i>Women in Machine Learning (WiML) Un-Workshop at ICML 2020, Workshop</i> <ul style="list-style-type: none">Held Breakout Program and Logistics Chair at WiML 2020. Having this role led me to promote diversity and inclusion in STEM by highlighting the scientific achievements of individuals belonging to underrepresented groups.Created internal event materials and guidelines, held training sessions for presenters, led dry-run sessions, and created the post-event impact reports.	Jul. 2020
Student volunteer <ul style="list-style-type: none"><i>MAIN 2020</i>: Arranged the Gather.town platform for the social event at MAIN.<i>MAIS 2020</i>: Organized the poster session at Gather.town virtually, and mentored 5 volunteers.<i>MAIS 2019</i>: Helped with the posters, stands, and coordinated with the poster presenters.<i>RLDM 2019</i>: Helped with the registrations.<i>MAIS 2018</i>: Volunteered at the registration desk and logistics.<i>Robocup Montreal 2018</i>: Arranged the registration and welcome desk. Also, tested the robots for international competitions.	Sept. 2018 – Present
Editor <i>International Technical Committee (ITC)</i> <ul style="list-style-type: none">As part of ITC association, I was in charge of editing and proofreading scientific papers as well as mentoring undergraduate student on their graduate studies applications.This committee was associated with Shahid Beheshti University of Iran. Their main focus was holding workshops regarding effective scientific communications in engineering schools. This association was founded by Mona Ghassemian. Here is the website.	Jun. 2016 – Sep.2017
